What Sets Us Apart

# DynaTech's Competitive Advantage

Global Work Experience  
(USA, Europe, Asia) for  
seamless rollouts

Successful Deployment  
of 150+ Microsoft  
Dynamics Projects

A single-stop shop for  
all of Microsoft's  
Business Applications

In-house QA Teams to  
ensure Information and  
Data Security

Empowering businesses in  
Manufacturing, Retail,  
Education, and more

Strategic Approach  
Resulting in Quick  
Turnaround & Solutioning

# Dynamics 365 API Solution

---

When a customer orders via Shopify or Magento, it syncs with D365 CE using our API integration. Similarly, in-store purchases in D365 CE are updated on the e-commerce platform. This real-time, bidirectional sync ensures accurate data across channels.

The image displays two overlapping screenshots. The top screenshot is from the Shopify admin interface, showing the customer profile for 'Viraj Lasure' (Kalyan MH, India). It includes sections for 'Last order placed', 'Metfields' (with a birth date of 7 Aug 1994), and a 'Timeline' section. A blue callout box at the bottom of this screenshot reads 'Customer Order in Shopify'. The bottom screenshot is from the Dynamics 365 CE 'DT Order Management' interface, showing the same customer's profile. It includes sections for 'CONTACT INFORMATION', 'BILLING', and 'CONTACT PREFERENCES'. A blue callout box at the bottom of this screenshot reads 'Customer Order Reflects in D365 CE'.

When an order is created in D365 CE, users can view the full summary and select shipping options from UPS or FedEx via API integration. This streamlines shipping with carrier options, price comparisons, and delivery estimates in one place.

The screenshot shows the D365 CE interface for an order. The main window displays the order summary for ORD-01280-M7X856, including customer details (Marion Zemlak), account information, and a list of products. A 'Shipping Options' modal window is open, showing a table of available shipping options:

Code	Description	Transportation Charge	BaseService Charge	ServiceOptions Charge	Total Charge
01	UPS Next Day Air	121.57	0.00	0.00	121.57
02	UPS 2nd Day Air	47.57	0.00	0.00	47.57
03	UPS Ground	15.62	0.00	0.00	15.62
12	UPS 3 Day Select	41.80	0.00	0.00	41.80
13	UPS Next Day Air Saver	106.73	0.00	0.00	106.73
14	UPS Next Day Air Early	156.45	0.00	0.00	156.45
59	UPS 2nd Day Air A.M.	55.53	0.00	0.00	55.53

Buttons for 'Cancel' and 'Confirm' are visible at the bottom of the modal.

Order Summary with Shipping Options

Select the Best Available Shipping Option

Use Case: The customer pays 50% at order confirmation and the remaining 50% after shipment. The final payment is authorized from the backend before collection. Payment milestones and order history are automatically updated in D365 CE with full transaction visibility.

The screenshot shows the Dynamics 365 CE interface for a payment record. At the top, there is a toolbar with various actions like Save, Authorize, Capture, Void, Sale, Refund, Subscription, New, Deactivate, Delete, Refresh, Check Access, and Assign. The main content area displays the following information:

- Payment Number:** P-00000034
- Customer:** Kevin Martin
- Regarding:** TestOrder\_30\_08\_2024\_N1
- Amount Information:**
  - Total Authorized Amount: \$9,500.00
  - Total Captured Amount: \$3,500.00
  - Total Void amount: \$4,000.00
  - Total Sales amount: \$8,497.00
  - Total Refunded amount: \$0.00
  - Total Amount: \$45,997.00
  - Remaining Amount: \$34,000.00
  - Remaining Authorized Amount: \$2,000.00
- Subscription Information:**
  - Credit Card Vault: 1058
  - Subscription Plan: P-0010
  - Subscription ID: 9330242

Payment Gateway

The screenshot shows a modal dialog box titled "Authorization Payment Details". It contains the following fields and controls:

- Create Credit Card:** A button with a plus icon.
- Credit Card:** A dropdown menu showing "XXXX XXXX XXXX - 0015".
- Authorize Amount:** A text input field containing "1100".
- Authorize:** A blue button.

Authorization of Payment - A Notification will be sent on email

Use Case: The customer pays 50% at order confirmation and the remaining 50% after shipment. The final payment is authorized from the backend before collection. Payment milestones and order history are automatically updated in D365 CE with full transaction visibility.
