Survey & Feedback Management Tool

Manager Dashboard Key Features

› **Automatic Role-Based Login via SSO:** When the SSO link is clicked, the system automatically identifies the user's role (reviewer or manager).

› **Data Loading:** Responses from Sitecore are loaded into Dynamics, with a default "Ready" status.

› **Assignment Management:** The manager can assign assessments to reviewers for review.

› **Exclusive Access:** The manager can see both the pre-filled Sitecore responses and the reviewer's inputs.

› **Editing Capability:** The manager can modify responses if needed.

› **Review Tracking:** The manager can monitor the review process from start to finish.

Reviewer Dashboard Key Features

› **Email Notification:** The reviewer receives an email with a Single Sign-On (SSO) link as soon as the manager assigns an application.

› **Review Actions:** The reviewer can accept, reject, complete, or save the assigned review.

› **Response Handling:** The reviewer fills out responses during the review.

› **Easy Interaction:** The review process is simple, with clear options for navigation and submission.

Once logged in to the application, a manager can assign a ready assignment, as well as check the status of responses.

Reviewers can choose from the given options as well as add their descriptive answers, as per the pre-defined functionality set by the manager.

Work Environment Qualitative Exemplars

In the Work Environment Module, units are asked to share information about processes, initiatives and outcomes that reflect crucial elements for the unit's success related to the work environment. The responses in this category should be guided by the module handbook and reflect the unit's activities, processes, and outcomes achieved during the previous calendar year.
