

Expense Management

Gain Full Control Over Spending. Optimize Financial Health. Drive Efficiency!

DynaTech's Expense Management is powered by **Dynamics 365** and **Power Apps**, giving your organization the tools to help businesses streamline expense tracking, reduce errors, and make informed financial decisions.

Key Features

Expense Report Management

Feature: Streamlined submission of expense reports with attached documentation.

Benefit: Allow employees to submit reports effortlessly, reducing delays and improving the efficiency of the expense submission process.

Automated Approval Workflows

Feature: Efficient, automated approval processes for expense reports.

Benefit: Minimize manual efforts, speed up reimbursement cycles, and ensure compliance with predefined financial policies.

Integration with Accounting

Feature: Seamless integration of expense data with your financial accounting systems.

Benefit: Access accurate, real-time financial reporting for improved tracking and decision-making, while reducing manual data entry.

Vendor Invoice Integration

Feature: Centralized management of vendor invoices and expenses.

Benefit: Enhance financial control and streamline workflows for improved transparency and efficiency in vendor-related expenses.

Multi-Currency Support

Feature: Manage expenses in multiple currencies with ease.

Benefit: Simplify financial transactions for businesses with international operations, ensuring smooth processing across different monetary units.

Expense Forecasting

Feature: Predict future expenses based on historical data and trends.

Benefit: Enable proactive financial planning by allocating budgets accurately and avoiding unexpected cost overruns.

Receipt and Document Management

Feature: Simplified attachment and storage of receipts and supporting documents.

Benefit: Ensure compliance with reporting requirements by maintaining organized records of all expense-related documentation.

Itemize Recurring Expenses

Feature: Efficient tracking and reporting of recurring expenses.

Benefit: Simplify the handling of frequently incurred costs, ensuring accurate documentation and better budget control.
