

Shipping Connector

Streamline logistics, enhance customer satisfaction, and reduce shipping complexities!

DynaTech's Shipping Connector optimizes your shipping operations by integrating third-party shipping carriers with **Dynamics 365**, simplifying logistics, improving tracking, and automating the entire shipping process.

Key Features

Real-Time Shipping Rate Calculation

Feature: Integrates with UPS, FedEx, DHL, USPS, and EasyPost APIs to calculate shipping costs during checkout.

Benefit: Provide accurate shipping costs, reducing cart abandonment and improving conversion rates.

Real-Time Shipment Tracking

Feature: Tracks packages in real-time using UPS, FedEx, DHL, USPS, and EasyPost APIs.

Benefit: Keeps customers informed and satisfied with transparent, real-time updates.

Automated Shipping Label Generation

Feature: Automatically generates compliant shipping labels for all major carriers.

Benefit: Reduces manual work, eliminates errors, and ensures shipping compliance.

Logistics Operations Automation

Feature: Automates processes like label creation, tracking, and shipment confirmation.

Benefit: Increases operational efficiency and reduces shipping-related costs.

Sales Order Charge Management

Feature: Manages additional charges related to shipments within sales orders.

Benefit: Ensures precise accounting and cost control.

Delivery Estimates

Feature: Provides real-time delivery estimates based on shipment data.

Benefit: Improves customer satisfaction and reduces the workload on customer support.
