Shipping Connector

Businesses face challenges related to shipping operations including lack of real-time shipment status, manual data entry processes, and risk of delays or errors. Our shipping connector helps solve them by seamlessly integrating 3rd Party Shipping Carriers data into your system to:

Streamlines Logistics Operations

Enhances Customer Satisfaction

Reduces Operational Headaches

Features

01 Real-Time Shipping Rate Calculation

Integrate with carrier APIs to calculate and display accurate shipping costs during checkout.

04 Logistics Operations Automation

Automate shipping tasks to improve efficiency and reduce costs.

02 Real-Time Shipment Tracking

Provide real-time package tracking using carrier APIs of UPS, FedEx, DHL, USPS and EasyPost.

05 Sales Order Charge Management

Manage additional sales order charges for accurate cost accounting.

03 Automated Label Generation

Automate shipping label creation through carrier API integration, ensuring compliance and reducing errors.

06 Delivery Estimates

With real-time tracking and delivery estimates, improve customer satisfaction and free up resources.
