

Ecommerce Connector

Managing multiple platforms, syncing data, and ensuring order accuracy is a constant challenge. DynaTech's E-commerce Connector offers a seamless solution to help you with:

**Streamlined
Operations**

**Enhanced
Customer
Experiences**

**Increased Sales
and Revenue**

Features

Order Management Systems

Centralize order tracking with seamless data flow, removing manual entry and errors.

Third-Party Logistics Integration

Optimize logistics by integrating with providers like FedEx, USPS and UPS.

Front-End Integration

Integrate with various e-commerce platforms like Shopify, Magento, and WooCommerce.

Finance Integration

Integrate orders, invoices & payments with financial systems like Dynamics 365 Finance & SAP.

Smooth Tax Integration

Simplify tax compliance with automated solutions like Avalara or Vertex.

Customer Service Integration

Automate case generation for discrepancies and enhance customer support.

Payment Gateway Integration

Provide secure payments through gateways like PayPal and Stripe, streamlining reconciliation.

Omni-Channel Management

Synchronize products, pricing, and promotions across all channels.
