

# Leave Management on Power Apps

Manual leave management is a burdensome and error-prone process for organizations. Inefficient leave tracking, slow approvals, and a lack of transparency further exacerbate these issues. With our robust Leave Management Portal, we can help you:

**Optimize Workforce Planning**

**Enhance Employee Experience**

**Mitigate Compliance Risks**

## Leave Request Management

Empower employees to easily request time off with a user-friendly interface.

## Self-Service Portals

Manage employee leave requests and balances independently.

## Effortless Approval Workflows

Automate leave approvals for quick and hassle-free decisions.

## Notifications and Reminders

Automate notifications for upcoming leaves and approvals.

## Transparent Leave Balances

Allow employees to easily view their available leave balances.

## Accrue Leave and Absence Plans

Accurately track and manage leave and absence entitlements.

## Compensation Management

Manage salary structures, bonuses, and benefits efficiently.

## FMLA Cases

Simplify management of Family and Medical Leave Act (FMLA) cases.

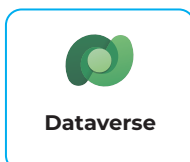

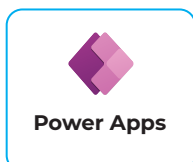

## Power BI Reports

Gain insights with customizable HR analytics dashboards.

## Employee Enrollment

Streamline benefits enrollment and onboarding processes.

## Our Technology Stack

## Our Impact in Numbers
